Select Disputed Content

The most accurate way to let us know exactly which app you are disputing is to provide a link to the app from the App Store.

Alternatively, you may use the search tab below to search for the app at issue. If there is more than one app you wish to dispute, you will be able to add additional apps after completing the next step. Note that if an app is available on more than one platform (e.g. iPhone/iPad/Mac) you may need to identify each version.

If you choose the search option, the country name drop-down menu will allow you to search iTunes storefronts throughout the world. It is not necessary to select the same content in multiple countries. You will have the ability to specify all territories where you are disputing the app on the next page.
